Course Description:

This course introduces students to the strategies and purposes of program planning in public and nonprofit organizations. It focuses on the knowledge and skills required by those who are involved in the process on a daily basis. The course provides a solid base in developing an understanding of program planning and applying that understanding to work-life situations. The course also provides an overview of understanding the elements involved such as strategic planning, operational planning, understanding culture, core value creating processes, adding value and evaluation. A solid understanding of these concepts is essential to operating successfully in the public and nonprofit arena; in other words, putting all of the pieces together in a comprehensive plan.

Students will be required to produce a program plan for a new nonprofit program. The program plan can be for an actual program or a fictional one. The course will provide the basis for putting the final product together.

Course Objectives:

1. To acquire substantive knowledge of each major area of program planning and evaluation.
2. To develop problem-solving skills relevant to situations faced by managers when program planning.
3. To develop technical skills relevant to effective program planning and evaluation and understanding the necessary elements involved.

Required Textbooks:

All required reading will be provided in the Learning Unit. Reading assignments come from a variety of authors and sources, some theoretical and some practical.

Course Requirements:

Learning Units must be completed each Sunday night by 11 pm (MST). Students are required to read the mini-lectures, complete all required reading, participate on the Discussion Forum, and submit all writing assignments. Please pay close attention to writing assignment due dates.
Learning Units provide “Learning Points” based on what the instructor and authors are trying to emphasize as key elements for the student to learn and understand. These are not to be considered all-inclusive and the student is responsible for utilizing these “Learning Points” in conjunction with the readings in developing their understanding.

**Request for Withdrawal:**

Please see the [University of Montana Extended Learning website](http://www.umt.edu) for information on withdrawing from courses and on refund policies. Students are responsible for reading and understanding the full UM policy on Withdrawal from the University. (Please note- I do ask that you just contact me to let me know you are thinking of withdrawing.)

**Course Grading and Assessment – Undergraduate & Graduate Students:**

**Discussion Forum Guidelines:** The Discussion Forum is our opportunity to “talk” together as a class. Each week the instructor will post specific questions for each student to respond to. Questions are designed to have you reflect on the mini-lectures and reading materials to express your thoughts, insights, questions, etc. You must enter the Discussion Forum more than once per week. The first entry will be your response to the specific Discussion Forum question. Your second entry will be a response or comment to your peers’ postings. This dual entry process will help you stay engaged in the class conversation to post your own comments and respond to classmates’ comments. Your active participation in the Forum (reading each other’s comments and posting your own) will help you to better understand the material in each week’s lessons, and demonstrate your learning and comprehension of the topic areas we will cover.

****Your first entry response to each discussion question is due every week on Thursday before 11:00 PM. Your second entry response commenting on at least one of your classmates’ responses is due every week on Sunday before 11:00 PM. It is important to remember these two deadlines each week for the Discussion Forum assignments.****

Discussion Forum responses should reflect higher level thinking and interpretation. The instructor hopes to see that you are able to demonstrate not only that you have completed the required reading assignments and understand them, but that you have thought more deeply to analyze and critique the information provided, and even the professional applicability of the information (when appropriate).

Your Discussion Forum responses and comments will be assessed based on the following criteria:

1) Does the response address the question asked?
2) Does the response reflect an understanding of the concept or question?
3) Is it based not only on what has been presented, but also includes insights you have and can justify?
In addition, use academic writing style (proper capitalization, punctuation, spelling and 
grammar) in all messages to avoid misunderstandings. Do not use emoticons, e-mail acronyms 
such as lol (laughing out loud), imho (in my humble opinion), tl; dr (too long; didn’t read) and 
other informal, abbreviated forms of electronic writing. **Students in any of your online courses 
may be using screen readers or other assistive devices that will not properly read such 
abbreviations.** Be courteous and write in ways that are accessible and understandable to all 
members of your online class.

Be sensitive to the perspective of others when expressing ideas. Do not use an authoritarian or 
judgmental style of writing that discourages open group discussion and trust. Stick to the topic 
and contribute with comments/questions that move the dialogue forward or into deeper 
reflection. Debate and humor are welcome here.

The instructor will issue Discussion Forum/Class Participation points each week throughout the 
semester so you can track your progress and grade. Each week, Discussion Forum participation 
is worth 2 points, for a total of 20 points in the semester. All Discussion Forum entry responses 
are submitted in Moodle.

**Written Assignment Guidelines – UNDERGRADUATE STUDENTS ONLY:** All writing assignments 
will be turned in on Moodle as Word documents (NO PDF DOCUMENTS). Four (4) writing 
assignments are required for undergraduate students. The four (4) assignments are to be 
double-spaced (12-font Times New Roman), and one inch margins all around. Place your name 
on the first page in the upper left hand corner. The specific length requirement is identified in 
each assignment description. Students are required to follow the instructions contained in the 
relevant Learning Unit for each assignment.

Writing assignments 1, 2 and 3 are worth 20 points each; writing assignment 4 is worth 30 
points and the Discussion Forum is worth 20 points for a total of 110 points for the course. 
Points will be subtracted for occurrences of the following:

- single sentence paragraph
- verb-subject disagreement
- sentence fragment (incomplete sentence)
- run-on sentence

The papers shall be submitted in Moodle no later than on the date it is due prior to 11:00 pm

Written Assignment Guidelines – GRADUATE STUDENTS ONLY: Graduate students are required to complete five (5) writing assignments. The first four are the same writing assignments that the undergraduate students are completing. The fifth writing assignment constitutes the “Increment for Graduate Students.” For this increment, graduate students are required to develop a 1-2 page (double-spaced) case study based on personal experience that raises an important program planning and evaluation issue. Graduate students are then required to identify appropriate analytical questions and proceed to write a three (3) page analysis of the case. This will be graded as one paper assignment. The instructor must review and approve the 1-2 page case study prior to the graduate student proceeding to write the three (3) page analysis.

Writing assignments 1, 2 and 3 are worth 20 points each; writing assignment 4 is worth 30 points; writing assignment 5 is worth 25 points (10 points for Part 1 and 15 points for Part 2); and the Discussion Forum is worth 20 points for a total of 135 points for the course. Points will be subtracted for occurrences of the following:
- single sentence paragraph
